All set, she will send us a notice they are expanding who they serve, but they are not adding any equipment or dining areas. State building inspector has told them he needs to review because they will be a different use group within a use group (go figure) to issue CO but said they will have no trouble. Boston does not inspect/permit so nothing left to do.

Darn I hit send without giving instructions, Steve she called for you but Paul if you can take the call that would be great if Steve doesn't mind.

Thanks,  
Celeste
